

THE  
**S20**  
FREESTANDING GAS STOVE

### Highest Efficiency

The S20 has an impressive 74.5% P4 efficiency rating. Due in part to the innovative heat exchanger design. Available in Nova and IPI.

### Versatile Venting

But where will it go? The S20 makes installation a breeze by giving the option to vent as a rear vent or top vent.

### Fluted Liner & Log Set

A 7 piece high definition logset is surrounded by our new charcoal fluted liner panels.

### Variable Speed Fan

The S20 comes with a 150 CFM variable speed fan included standard.

### Safety First

Our Clear View Safety Screens are made from a precision weave stainless steel mesh that allows maximum visibility.

### Cast Iron Grate

The heavy duty fire grate gives each burn an authentic wood fire appearance.
